

## COMPLIMENTS A JANESVILLE MAN

COL. BURR ROBBINS ENGAGED IN A NEW BUSINESS.

Organizes a Bill Posting Syndicate in Chicago and Receives a First Class Notice From "The American Bill Board"—A Most Remarkable Career.

The veteran Janesville showman, Col. Burr Robbins, is the theme of a column story in the "American Bill Board" this week. Col. Robbins has organized in Chicago a big bill posting syndicate to compete with the Gunning Co. The "Bill Board" says:

"We have been exceptionally fortunate in securing a portrait of Col. Robbins that reproduces in cold ink some measure of his forceful features and portrays partially his habitual expression. In an accident which occurred some years back (and by the way, it would have killed outright any man of less vitality) the lower part of his forehead was frightfully crushed. The injury is still in evidence, although, strangely enough, scarcely noticeable. Photographs as a rule, however, magnify and distort the irregularity into a positive disfigurement.

Any one who knows Colonel Robbins will, therefore, readily agree that the cut which occupies our first page is indeed remarkable in that it portrays Col. Robbins exactly as he is.

Still, it is the man himself, and not his appearance that appeals most strongly to the interest.

Keen, evenly balanced and wonderfully shrewd, it is of course, goes without saying that he hails from Ohio. When he was mustered out of the army, with the rank of colonel, at the close of the rebellion, he returned to his native state, and shortly thereafter engaged in the circus business.

He started with nothing. In fact, the story of his life reads like a romance. For instance, during the panic of 1873, when business in all directions was utterly prostrated, Colonel Robbins' circus cleared nearly \$60,000. Its earnings increased every year thereafter as long as he operated it.

We shall have more to say of his reminiscences and achievements in future numbers. They abound in interest, and we command an almost inexhaustible supply of them.

Though at an age when most men are content to take things easy, Colonel Robbins still takes a lively interest in business. He owns the controlling interest in the American Advertising and Bill Posting company and the Western Ad-Sign Syndicate, both of Chicago, and finances both concerns personally.

He possesses great tenacity of purpose. In the face of great difficulties and adverse circumstances, the American Advertising and Bill Posting company has, under his guidance, grown to be quite the largest bill posting business in the world.

We speak advisedly on this point, and are not unmindful of Philadelphia and Boston, when we make the assertion. Both the latter are admirable—nay, wonderful plants, but the Chicago plant surpasses the one in the superficial area of its holdings and the other in the net volume of business.

The Western Ad-Sign Syndicate, though but recently launched, is a most promising youngster, and bids fair to monopolize the bulletin business of the Windy City at no distant date.

Indications all point to the fact that Colonel Robbins has at least twenty or twenty-five years of active life ahead of him, and there is simply no telling what he will accomplish before he retires to enjoy the fruits of his labors.

He is a millionaire now, but his temperament is such that he simply cannot abide the idea of going out of business.

His friends are many, and they are all of the kind worth knowing and worth having. We regret that we cannot at this time dilate at greater length on the career, characteristics and attributes of this truly remarkable man. Our space simply will not permit it; but, as we stated above, we will have more to say later on.

## THEY ARE A PECULIAR PEOPLE

The Reorganized Church of Jesus Christ of Latter Day Saints

Five miles north of the city is being held this week a series of meetings, by ministers and members of the reorganized church of Jesus Christ of Latter Day Saints. The gospel tent is set in the grove on the hill back of the house of O. N. Dutton. Several families are also tented there and others are staying at Mr. Dutton's and at other houses in the neighborhood. The camp is well located, the surroundings are neat and good order is had in every respect. This body is separate and distinct from the Utah people, having no connection with them whatever. The meetings are in charge of Elder W. A. McDowell and J. H. Lake, missionaries in charge of the Wisconsin field. They are assisted by Elders E. M. Wildermuth, O. N. Dutton, W. P. Robinson and Peter Muehns as the missionary force, and by Elder H. A. Stebbins, of Iowa.

The first service was held on Saturday evening, the 17th, when Elder Lake preached upon the subject of the "Second Coming of Christ." At 9 o'clock on Sunday morning a prayer service was held in charge of Elders Robinson and Muehns. At 11 o'clock Elder Stebbins spoke concerning the reign of Christ, the coming king. In the afternoon Elder Lake presented the subject of the "Kingdom of God," and at the evening hour Elder Stebbins dwelt upon "The necessities and reasons why Mankind should have faith in God and in Christ the Redeemer."

There was a fair attendance upon each occasion, particularly on Sunday afternoon and evening. The regular order to be continued during the week is that a morning prayer service at 9 o'clock, preaching at 2:30 and again at 7:30. On Monday Elder McDowell occupied in the afternoon, speaking upon the duties of the members in the effort for a Christian life. At night Elder J. H. Lake spoke upon the doctrine of water baptism, its necessity and mode.

## EDGERTON NINE TOO GREEDY

Would Play Detroit, But Wanted More Than Their Share.

The Detroit base ball team will not play in Edgerton on Thursday of this week, and it is all owing to the fact that the Edgerton are looking for nothing but the best end of it. At least that is the way Manager Stallings, of the Detroit team, looks at it.

When he telegraphed Edgerton for a game in their own town he received a reply stating that a game was O. K. there on the one condition that Edgerton receive sixty per cent. of the gross receipts in case they proved winners.

Whether or not the Edgertons consider themselves a shade better than the Detroit is a matter that is yet to be solved. At any rate Edgerton will not see the Detroit play in their town.

The team that will play the Detroit in Janesville Friday will not be Edgerton nor will it be the Y. M. C. A. team. The nine will be made up of all professionals from different teams in this section of the country, and a first class contest can be expected.

The condition of Private Inman has been of such a nature of late as to cause alarm among relatives. Physicians in charge say that his case is no worse than that of many other soldier boys who are now in the field hospitals in the south, and that there need be no fear as to fatal results from present indications. Mr. Rich is now at Jacksonville, and has been for some time past.

## STATE CAMPAIGN

OPEN ON OCT. 6

SENATOR SPOONER WILL BE THE SPEAKER.

Chairman Treat Makes Plans For a Big Gathering and Will Push the Work With Vigor—The Speakers to Be Heard—Some of the Issues.

State Chairman J. B. Treat announces that the republican campaign will be opened Thursday evening, Oct. 6, at West Side Turner hall.

Senator John C. Spooner will be the principal speaker, and it may be the only one on this occasion. "We have found it impracticable to open the campaign before that date," said Chairman J. B. Treat, of the Republican State Central committee. "The county conventions throughout the state will be held this week and next, and when the tickets are all made up we shall begin a vigorous campaign and push it to the end. Yes, we shall have quite a large number of prominent speakers from outside of the state. Among others who will speak in Wisconsin will be Webster Davis, the assistant secretary of the interior, from Washington. Mr. Davis has never spoken in Wisconsin, but he has in Minnesota, Iowa, Nebraska and elsewhere in the west, and has a reputation as an orator. Peter Hendrickson, a professor in Albion academy at Minneapolis, will also speak on national questions—the tariff and finances—unless the democrats propose to draw the line of battle on state affairs, in which case we shall meet them. We will show how the democratic administration manipulated the funds, by borrowing from one to pay the other, and threw the evil effects of their work upon the republicans."

**VOLUNTEERS AT KOSHKONONG**  
Five of Co. A. Men Are Enjoying Camp Life.

It now appears that at least five members of Co. A, First Wisconsin regiment didn't get all the camp life they wanted while at Jacksonville. On the shores of Lake Koshkonong is now pitched a cozy little camp that shelters Privates Greenleaf, Granger, Ames, Wilmot and Balderson. The boys left on the morning train, taking along plenty of fishing tackle and ammunition and guns, intending to enjoy life while their money lasts.

Washington, Sept. 20.—[Special]—The demonstration at the Philippines which will be made by this government is designed to show the governments of Europe that this nation is master of the situation there and will brook no interference in the conduct of the affairs of the group. Within two weeks there will be a larger force of troops and a stronger navy belonging to the United States at Manila than has ever been known in that vicinity. It is not thought here that any of the European governments, save, perhaps, Germany, would interfere with the consummation of our plans, but it is deemed the part of wisdom to show them that any interference would be fraught with danger to them. The battleships Oregon and Iowa will prove a valuable acquisition to Admiral Dewey's fleet. Although these vessels are ostensibly dispatched to temporarily supply the places of others sent to dry dock, it is understood here that they will be stationed at Manila permanently, or until all the issues arising from the war are finally settled. Dewey's ships are the best in the navy, and reinforced by the Oregon and Iowa will be impregnable.

Farmers are marketing some grain, and those who keep cows, and that includes a large percentage, are in a more prosperous condition than for several years. Labor is in good demand at fair wages and there are no men who desire to work, that are idle as was the case two years ago. In fact "prosperity" seems to have "arrived" despite the croakings of the Bryanites.

## SHALL WE ARRANGE A PEACE FESTIVAL

MAYOR THOROUGHGOOD ASKS THE QUESTION.

Will Call a Public Meeting in a Few Days To Discuss The Matter, and He Wishes To Know the Desire Of the People.

The national monument committee, for the erection of a monument to the dead heroes of the Cuban battlefields, and the martyrs of the Maine, has sent Mayor Thoroughgood the following: "New York, September 14, 1898. Dear Sir:—The sub-committee of the National Monument committee, charged with the building of a national memorial to the men who fell on Cuban battlefields and to the sailors and marines who went down with the Maine, earnestly solicits your co-operation in the celebration of a national 'Peace Festival' in your city on the evening of Sept. 30 next.

"Already over \$200,000 has been subscribed by the people of the United States, towards the memorial. It is hoped to receive a very material addition to this fund on 'Peace Day' and at the same time to make the celebration a fitting tribute to the brave men who died for the country's honor. With your kind assistance both of these objects can be achieved. Plans have been perfected that promise to insure the observance of the 'Peace Festival' in every city and village of the country. "This committee begs, that you appoint a committee of your fellow citizens, to arrange the details of your local celebration, and it is respectfully suggested that you act as chairman of this citizen's committee.

"In order to facilitate and simplify the work of arranging your celebration, there is submitted herewith for your consideration, the outline of an evening program. Of course this outline is merely a suggestion to be followed or not as your committee may decide.

"The song which we enclose, was specially composed for the 'Peace Festival' by Victor Herbert, the famous bandmaster. The words are by Thos. J. Vivian. The song is considered by experts to be one of the finest productions of its kind of the century. This committee is prepared to send you free of charge as many copies of the song as you may desire so that if necessary every person attending the celebration may be supplied.

"Advertising matter and announcement cards which will also be furnished gratuitously on application.

"Regarding the collection of the 'Peace Festival' offerings for the fund, this committee has but two suggestions to offer: either charge admission at the door or else take up contributions.

"Upon receipt of this letter, you are respectfully requested to communicate with Paul Lutzke, secretary of the National Monument Committee, Room 60, 154 Nassau street, New York City, when any additional information or assistance in arranging for the celebration will cheerfully be furnished."

The letter is signed by W. C. Whitney, former secretary United States navy; George C. Perkins, United States senator from California; Rear Admiral Thomas O. Selfridge, Jr., United States navy; Rev. Sheldon Jackson, moderator of the Presbyterian assembly of the United States, and Paul Lutzke, secretary National monument committee, Room 60, 154 Nassau St., New York City.

Accordingly, Mayor Thoroughgood has prepared the following announcement:

For the purpose of bringing this matter before our citizens the mayor will call a special meeting if asked, the coming week to get the sentiment of the business men and others on this matter. While I am satisfied the resources of our citizens have been heavily drawn upon for one thing or another for some time, I do not feel like letting this pass by unnoticed. It will be impossible for the mayor to take any steps unless the citizens show a desire that Janesville shall take a hand in this festival. It must also be remembered that it will take quite a working force to take charge of this affair. Therefore, the committee appointed by the mayor ought to take hold with a will to insure its success, and unless this is done it will be of no use making the attempt.

JOHN THOROUGHGOOD, Mayor.

## HAVE PLACED A TIME LIMIT

Peace Commissioners Have Definite Instructions.

MUST REACH A CONCLUSION.

President McKinley Has Selected Dec. 1 as the Date on Which Agreement or Disagreement Shall Be Reported—The War May Be Renewed.

Washington, Sept. 20.—The American peace commissioners now on the way to Paris to meet the Spanish commissioners have definite instructions as to the time limit of the negotiations.

President McKinley instructed them to insist upon Dec. 1 as the latest day when a conclusion—either of agreement or disagreement—shall be reached.

The United States commission is directed to point out to the Spaniards after each commission has made up and presented its case, that three of the American commissioners are members of the United States senate, and they must be in Washington by the time Congress convenes.

The president is said to be firm in his intention not to permit the negotiations to be prolonged beyond a reasonable period, and two months, he believes, is ample for both nations.

The commission will not hold many joint sessions. The members will meet to present claims and demands and then adjourn to discuss them separately.

As the demands will come chiefly from the American commissioners, the Spanish members will have merely to accept or decline, and in turn present counter-propositions for the United States to consider.

By December there will have to be an agreement or the war will be renewed.

## STATUS OF DREYFUS CASE.

Proposed Revision Does Not of Necessity Mean a New Trial.

New York, Sept. 20.—A dispatch to the World from Paris says: Jules Perrier, a leading member of the French bar, explains the present legal status of the Dreyfus case as follows:

"Judicially, the ministerial decision to refer the case to an examining commission of three decides nothing except the resitting of the Dreyfus dossier in the light of recent events. The commission's finding will determine whether there shall be a revision or not. The decision is important politically in that it reveals and approves the sentiment of the country in favor of a revision."

Paris is quiet outwardly. There seems to be a sense of relief because a revision has virtually been determined upon."

## Strike Results in a Fight.

Cleveland, Sept. 20.—As the result of an attempt of a party of twenty-two nonunion men to enter the works of the American wire company Monday, where a strike has been on for some time past, a pitched battle took place between the strikers and the nonunion workmen. Clubs, stones and slungshots were freely used, and while no one was seriously hurt, a number of men were severely bruised or cut. Upon the appearance of the police the rioters dispersed. Only one arrest was made. The nonunion men did not get in the works.

Private services were held over the body at Haslemere by a local Presbyterian clergyman."

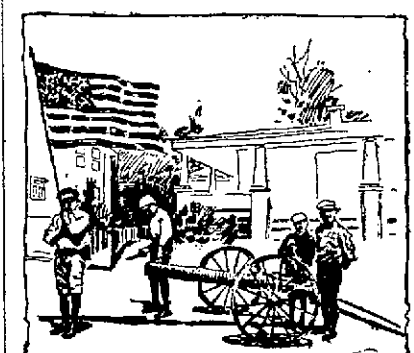

## Boundary Dispute Is Settled.

London, Sept. 20.—A dispatch to the Times from Buenos Ayres says that the boundary conflict has been settled. Both Chili and the Argentine Republic will supply Great Britain with statements showing where they agree to disagree, and Great Britain will draw the final boundary.

## HOMEMADE ARTILLERY.

The Light Battery That Was Made by a Quartet of Chicago Boys.

Four Buena Park boys have a "light battery" that makes them feel much like real soldiers, and they are particularly proud because they made the "ordnance" composing the battery themselves. It consists of a long forward of stovepipe mounted on the forward wheels of a buggy. The buggy trails form the rear portion of the cannon carriage, and the picture will show you that the whole thing has quite a formidable appearance.

The Dead Horse in Paris.

When we see a dead horse in the street, we either do not think of him at all or we say, "Poor horse!" and pass on and forget all about him a minute later. Then after awhile the movers come along and cart the animal away to the dumping grounds, and that is the last of him. But that simple process would not end his career if he were a Parisian horse. As is to be expected, the wily Parisian, who is noted for his economical habits, knows better than to let dead horses turn to dust without any profit accruing to him.

This is how they are utilized: First the hair of the mane and tail, which amounts to about one-quarter of a pound, is cut off and used in brushes, switches, whips and so on. The skin is then removed and sold to tanners. The shoes are sold to the "ole rags, ole iron" man. The feet are cut off, dried and beaten in order to make the hoofs come away, which are then sold to comb-makers or manufacturers of ammonia and prussian blue. Every particle of fat is picked out, and melted and used by makers of enamel and glass toys, for greasing shoe leather and harness and in the manufacture of soap and gas. The workmen eat the best pieces of the flesh and give the poorer pieces to dogs, cats, hogs and poultry or use them for manufacturing prussian blue. The bones are sold to tanneries or cutlers or are made into ivory black. Sometimes they serve as fuel for melting the fat. The sinews and tendons are sold to glue-makers. The small intestines are made into coarse strings. And by the time all that is disposed of there isn't much of a horse left.

## His Faith.

By Alpine lake, 'neath shady rock,  
The herby knell beside his flock  
And softly told with pious air  
His A. B. C. as evening prayer.

Unseen, the pastor lingered near.  
"My child, what means the sound I hear?"

"Where'er the hills and valleys blend  
The sound of prayer and psalms ascend.  
Meet I not in the worship share  
And raise to heaven my evening prayer?"

"My child, a prayer that ne'er can be  
You have but said your A. B. C."

"I have no better way to pray,  
But all I know to God I say.  
I tell the letters on my knees,  
And he'll make words himself to please."

—From the German.

## She'd Thought of It.

"Never mind, dear," I said to my little girl, having vainly endeavored to persuade her to give one of her dolls to a child who had never owned one, "never mind! Perhaps some day you will be a poor little girl yourself, and then you will know what it is to have no toys." "Yes, mamma," she sobbed, "I have thought of that, and that's the reason I want to save all my things!" —Youth's Companion.

## A Little Too Nervous.

Elsie was trying to eat a dessert of gelatin and had some difficulty in conveying the quivering spoonful to her mouth.

"Mamma," she said at length, "I don't believe I like such nervous desserts."

## It Doesn't Keep Rain Off.

"Oh, papa!" exclaimed little 4-year-old Ned. "Look what a bright star!" "Yes," replied the father, "and it is several times as large as our earth." "Oh, no, it isn't," said Ned, "because if it was it would keep the rain off."

So near is God to man.

## Corean Launderers Work Hard.

The women of Corea are probably the hardest worked laundresses in the world. Their husbands wear baggy pantaloons, which come up under the armpits like those of a clown, and the usual weekly "wash" contains about a dozen pair of these. Generally the washing is done in cold water and very often in a flowing stream.

## UNDER CAR WHEELS THOS. CROWLEY FELL

THE MISTAKE NEARLY COST  
HIM HIS LIFE.

Greater Portion of His Left Foot Had  
to Be Amputated—Resides at Mil-  
ton Junction and is Section Boss  
—At Palmer Hospital Where He  
Rests Comfortably.

While Thomas Crowley, of Milton Junction, was superintending the laying of rails on the Chicago, Milwaukee & St. Paul railroad at the north edge of the city limits today he attempted to board moving cars. He missed his footing and fell beneath the vehicle.

Those of his companions who witnessed the accident thought nothing but death awaited him. When the train was brought to a standstill the injured man was removed.

The wheels had crushed his left foot but otherwise he was unharmed. The injured man was made as comfortable as possible. The patrol was called and he was summoned to the Palmer Memorial hospital. Dr. J. B. Whitely and Dr. James Gibson, who were called, found that the foot from the instep to the toes was so badly crushed that amputation was necessary. The patient stood the operation as well as was expected, and at a late hour this afternoon he was resting easily.

Crowley is a section boss for the St. Paul road, and has been in the employ of the company for many years.

## ARRANGING TERMS OF PEACE

Negotiations Pending Between the Wis-  
consin and Chicago Football Teams.

John Fisher, of this city, as manager of the state university football team, is having his hands full these days in closing terms of peace between the Wisconsin and the University of Chicago Athletic association.

The committee appointed at the meeting of the council of the University of Chicago met yesterday afternoon and formulated a reply to the communication recently received by Dr. Harper from President Adams, of Wisconsin. This meeting, as all others connected with the trouble between the Maroons and Badgers, was a star-chamber session. Dr. Goodspeed admitted last night that the letter had practically been finished and would be mailed to Madison immediately. The tenor of this communication is a close secret, but it is admitted that the evidence received by Dr. Harper a few days ago had some influence over what was written. It is thought that the letter is somewhat conciliatory and that the outcome will probably result in a resumption of athletic relations between the Maroons and Cardinals this fall, and in time for a game to be scheduled between the football teams on Nov. 12.

## REPAIRING RAILROAD BRIDGE

Crew From Milwaukee Have Finished  
Their Labors Here.

The pile driving and bridge building crew of the Chicago, Milwaukee & St. Paul railroad, who came here from Milwaukee several days ago for the purpose of repairing the railroad bridge below the upper dam, have finished their labors. The job required the driving of several new piles and also the replacing of several timbers.

The bridge is located within but a few yards of the dam, and the rush of water against the piles at certain seasons of the year had a tendency to somewhat weaken the structure. Local railroad officials, say, however, that at no time was the bridge considered unsafe.

## FUNERAL OF MRS. STEVENS

Impressive Services Held at the Family  
Residence This Afternoon

Funeral services over the remains of the late Mrs. Frances E. Stevens were held this afternoon at 2 o'clock from the South Main street residence. Rev. W. A. Hall, of the Court Street, M. E. church officiated, and the remains were laid to rest in Oak Hill cemetery.

E. Ray Stevens and Dr. J. V. Stevens sons of the deceased, who reside in Madison, were here to attend the services.

The floral offerings were beautiful and the home was filled with loving friends to pay their last respects to one they loved.

## ONE CENT A MEAL.

It costs about one cent for a meal of Grape-Nuts. This food is pre-digested and furnishes in a condensed form all the nutriment necessary for the human body. It is ready for instant use, only requiring the addition of cream or milk to make a palatable and nutritious delicacy.

This novelty is now on sale by our grocers.

It takes "three" hours for Chicago evening papers to get to Janesville. It takes less than one second for the telegraph to cover that distance. The Janesville Gazette receives full press association dispatches, and the news is three hours later than that of Chicago and Milwaukee, evening papers sold in this part of the state.

## MARK CUMMINS RESIGNS HIS PLACE

WILL MANAGE ELECTRIC LINE  
IN INDIANA.

Will Make South Bend His Headquarters—Has Worked For This Same Firm Before—Who His Successor Will Be Has Not Yet Been Decided.

Mark Cummins, superintendent of the Janesville Street Railway, has resigned his position and will move to South Bend, Ind., where he will assume the management of an electric line. Within the next two weeks he expects to make the change.

Some time ago he was made a hands-on officer by the South Bend firm to come to that city and for several days past he has had this offer under consideration and has now made up his mind that the best thing for him to do is to accept it.

Prior to moving to this city Mr. Cummins worked for this same firm in South Bend. Of late they have branched out in the electric street railway business and now have lines running to Elkhart and Goshen. It is one of these lines that the Janesville man will have control over.

Since coming to this city Mr. Cummins has done much towards building up the local line and improving it from one end to the other. New cars have been added under this management, and no money has been spared towards making the line complete in every way. That it is now far better than the town warrants is a well known fact.

Mr. and Mrs. Cummins since moving to this city have made a host of warm friends who will regret their departure. Just who will succeed Mr. Cummins is a matter that yet remains unsettled.

## FARMERS POISON CANINES

George Bennett Is Home From Hunting  
Chickens In Kansas.

George Bennett, of this city, who was roadmaster of the Chicago, Milwaukee & St. Paul railroad for many years, is home from a month's visit in Kansas, where he spent the greater portion of his time in hunting prairie chickens.

He reports plenty of chickens, but says that hunting dogs are a scarce article there for the reason that the farmers poison them so that the chickens will be more plentiful from year to year.

Mr. Bennett managed to lighten his chickens into the open air by driving his horse through the fields.

At Omaha he was joined by his wife. They pronounce it a sight well worth traveling many miles to see.

## THE NERVOUS WOMAN.

How She Gets Ready to Take a Little Rest.

These are the days when the fatherly physician says to the nervous woman:

"My dear Mrs. Blank, you simply must leave town for a few days. Don't worry about clothes; put a few things into a satchel and take the first boat for Sea Spray or Wave Crest." So the nervous woman who is not ready to leave town prepares to follow his advice, says the New York Advertiser.

It is not a pleasant experience if one happens to be her husband or her handmaiden. She pines everything she wants to take with her in the middle of her dressing room and then she starts out with: "What time did you say that train was? One forty-five, from Thirty-fourth street? Now you know that no train leaves Thirty-fourth street. Boat? Well, why did you not say so before, when you know how easily I get confused. I suppose that clock is slow; no one would ever think of setting it but me. Where is my lilac shirtwaist? Maria, Ma-ri-a! Do look around this room and see if you can't tidy it up a bit. And give those poor palms a drink. I can't do everything. Collar button? How should I know where your collar button is, John? I can't find my own things, much less keep my eye on your old collar. If some one does not find my lilac shirtwaist for me I simply cannot go to the country. I won't travel looking like a tramp to please Dr. Jones or any one else. Torn, you say, Maria? Well, why don't you put a stitch in it? I'm sure I don't know what else you've got to do. See how busy I am. Where is my umbrella strap? John, if you look at me like that again I shall scream. I am nervous and you ought to be a little considerate. Do go out of my room. Sit down somewhere and smoke. Has Celine sent that hat? No? Of course not. I should have been surprised if she had. Will surely arrive, you say? Much you know about it. In all the years she has been working for me she has never kept her promise once. My bag all packed? Oh, Maria, you are a good girl. I'm nervous, you know, so you must pardon my scolding. \* \* \* John, John, dear, will you open that box? My new hat is in it. Oh, how warm it is! Cat at the door? Yes, I'm ready. Good-by, Maria. I'll be back soon. Come, John, what time is that train?"

## ARMY TO BE SENT TO CUBA.

Forty Thousand Men Will Be Added to the Present Force.

## RAINY SEASON IS ENDED.

War Department Has No Fears for the Health of the Troops. That Will Garrison the Island—Much Sickness Among Immunes.

Washington, Sept. 20.—It is the present intention of the administration to send to Cuba as a garrison force for the island about 40,000 troops. In addition to the force now in Santiago under command of Gen. Lawton.

The organizations which are to comprise the Cuban garrison have not all been designated yet, but it is assured at least half of them will be volunteers.

Within two weeks orders will be issued for the movement to Cuba of the first 10,000 of the permanent garrison, and it is the expectation now that they will sail from the United States about Oct. 10. These troops will be followed quickly by others, until the entire force of 40,000 has been established on the island.

It is not the intention of the administration to await the evacuation of the island by the Spanish forces before sending United States troops to Cuba, as the indications now are that it may be several months before the Cuban commissioners complete their work. Quite naturally a considerable number of Spanish troops will remain on the island until the arrangements for the relinquishment of Spanish sovereignty over it formally have been concluded.

The rainy season in Cuba is nearly at an end and the most delightful season of the year on the island is about to begin. During the late fall and winter months the climate in Cuba is not only enjoyable but healthful, and with such care as will be taken for the health and comfort of the American forces to be stationed in Cuba officials of the war department have no fear that serious illness among the men will follow the occupation of the island.

Gen. Lawton, who is in command of the military department established at Santiago province, has recommended to the war department that the American troops should be withdrawn and that the duty of garrisoning and policing the province should be turned over to the Cubans.

The principal reason for Gen. Lawton's suggestion is the large amount of sickness that exists among the troops under his command. The disturbing information he sends on this subject has caused the war department officials considerable uneasiness.

Gen. Lawton reports that nearly 50 per cent of his command is on the sick list. Most of the illness is from the malarial and other fevers common to the country. Yet the military force under Gen. Lawton is almost entirely composed of the so-called immune regiments. It turns out that while a fair proportion of the men of these regiments may be comparatively immune from yellow fever, they are no better prepared to meet the other climatic diseases of Cuba than the unacclimated regulars and volunteers who went there under Gen. Shafter.

## ALGER MAY GO.

His Resignation Is Now in President's Hand.

Washington, Sept. 20.—Just before he left Washington Secretary Alger placed his resignation in the hands of President McKinley. A report to this effect is confirmed by a member of the cabinet, who said:

"The resignation was not in writing, but was tendered verbally. The secretary's decision to take this step was not the result of hasty action, but the logical outcome of weeks of unfavorable criticism from the press and public on the conduct of the war. Although he has endeavored to maintain an outward calm, he has suffered severely under fire.

"Whether the resignation will be accepted is not determined. The president has the highest regard for Secretary Alger and believes him to be a worthy and competent official. Unless an investigation determines to the contrary the president will probably stand with the secretary.

"Secretary Alger expects to be vindicated by an official investigation. He does not think that blame for camp horrors and mismanagement of affairs generally can be traced directly to his door.

## BUILD UP ARMY.

Philippines Are Preparing for a Desperate War.

London, Sept. 20.—The Manila correspondent of the Times says:

"The insurgents, urged by constant rumors of the intention of America to re-establish Spanish rule in the archipelago, continue actively recruiting their army. Hundreds from Manila are enlisting daily and troops are being drilled everywhere. Great diligence is exhibited in imitating the American formation and manual, particularly in volley firing. Intrenchments in certain positions are being strengthened and a vigilant line of pickets is kept outside the suburbs.

"At the same time the attitude of the insurgents is much more friendly than it was before the evacuation."

## Sick List Is Growing.

Jacksonville, Fla., Sept. 20.—The sick list in the Second Illinois has greatly increased. The surgeons give as a reason the water, which contains much

more sulphur than that in the old camp at Springfield. Efforts will be made at once to extend the pipes to have the same water.

## Spanish Soldiers Die.

Madrid, Sept. 20.—There is much indignation here at the fact that there were 123 deaths during the voyage among the 1,000 Spanish soldiers who have just arrived in Spain on board the Spanish transport San Ignacio de Loyola from Santiago de Cuba. The Spaniards attribute this heavy death rate to the "inhumanity of the Americans in obliging the sick Spaniards to embark and make room in the hospitals for the Americans."

## Will Not Assume Cuban Debt.

Madrid, Sept. 20.—The Spanish peace commissioners, who are expected to reach Paris next week Tuesday, have been given categorical instructions that Spain will not assume the Cuban debt and that the Philippines must be retained.

## Spaniards Leave Porto Rico.

Washington, Sept. 20.—The evacuation of Porto Rico by the Spanish troops is about to begin, as a result of the prompt negotiations of the San Juan military commission.

## WRECKS ON THE LAKES.

Twelve Disasters Reported, Due to Dense Smoke and the High Seas.

Chicago, Sept. 20.—Dense clouds of smoke have covered Lake Superior, St. Mary's River, the Straits of Mackinac and the head of Lake Huron during the last twenty-four hours. Navigation has been rendered extremely dangerous with all land and water marks hidden from view, and the peril has been rendered greater by the heavy northwest and west gales that have been sweeping these waters for two days.

Twelve wrecks were reported yesterday from various points on the lakes, due in nearly every case to dense smoke and high seas. The heavy winds have extended to Lake Erie, and rendered shipping there unsafe, but, as is usual with fall storms, boats on Lake Superior have suffered more severely.

Eight steamers and schooners are ashore along the south shore of this lake. Two are undoubtedly total losses, the schooners Mediator and Mead, while it is extremely doubtful if the steamer Colorado can be saved. The condition of the steamers E. C. Pope and Uganda is not known.

In nearly every case on Lake Superior the heavy seas are breaking up the stranded boats. A conservative estimate places the day's losses at \$350,000, when reports from all points are in.

The presence of smoke on the lakes indicates forest fires, but none is reported in the northern peninsula of Michigan. The winds are evidently bringing the smoke from a great distance.

## Wire Nail Strike to End.

Anderson, Ind., Sept. 20.—A settlement of the wire nail trust strike and a return to work of the 5,000 men from the fourteen plants is near consummation. National Secretary Gillett, of the workers' union, has arrived to confer with the men here. This settlement will be a compromise measure. The men are resisting a 40 per cent cut. They have been out three months and have brought pressure to bear by instituting a national boycott on trust product.

## Forest Reserve Is Extended.

Washington, Sept. 20.—The president has signed an order altering the boundaries and area of the Black Hills forest reserve in South Dakota. A portion of the reserve was unsuited for timber growing, and this has been excluded and a large tract extending into Wyoming, 443,000 acres, has been added to the reserve. This action was taken at the solicitation of the people living in the vicinity of the reserve.

## More Cases of Yellow Fever.

New Orleans, La., Sept. 20.—The Louisiana state board of health Monday reported three additional cases of yellow fever in New Orleans, making four in all. All of the patients are convalescent. The state board also found five cases of yellow fever in an Italian camp at Harvey's canal in Jefferson parish, just above New Orleans. No deaths have yet been reported.

Truth wears well. People have learned that DeWitt's Little Early Risers are reliable pills for regulating the bowels, curing constipation and sick headache. They don't gripe. People's Drug Co., corner East Milwaukee street.

## Dreadfully Nervous.

GENS.—I was dreadfully nervous and for relief took your Karl's Clover Root Tea. It quieted my nerves and strengthened my nervous system. I was troubled with constipation, kidney and bowel trouble. Your tea soon cleansed my system so thoroughly that I rapidly regained health and strength. Mrs. S. A. Sweet, Hartford, Conn. Sold by People's Drug Co.

## Milwaukee Industrial Exposition—Excursion Rates.

On account of the above event, the short line, Chicago, Milwaukee & St. Paul R'y will sell excursion tickets as follows: From September 10 to October 15, on Tuesday, Thursday and Saturday, good for return until the Monday following date of sale at a fare and a third. But from September 17 to 23 inclusive, the rate will be only half fare good for return until September 24.

FRENCH wheat wafers will not distress the weakest stomach; the injurious part of the wheat kernel is entirely removed. We sell a great quantity of this breakfast food; 10c per package. Sanborn.

## FOUR BOXES DID IT.

Remarkable Success of a New Pile Cure

People who have suffered for years or months from the pain and inconvenience of common disorder, piles, will look with skepticism upon the claims of the makers of the new discovery for cure of all forms of piles, known under the name of Pyramid Pile Cure; nevertheless the extraordinary cures performed by this remedy are such as to warrant the investigation of any sufferer. As a case in point the following letter speaks for itself.

Mr. Henry Thomas of sub-division station No. 3, Hosack Ave., Columbus, Ohio, writes as follows:

Pyramid Drug Co.: Gentlemen—I want you to use my name if it will be of any use to you. I was so bad with the piles that I lost work on that account. Nothing did me any good. I read in Cincinnati of the many cures of piles by the Pyramid Pile Cure and went to a drug store and asked for it. The drug told me he had something else that he thought was better, but I told him that I wanted to try the Pyramid first.

The first box helped me so much that I another and then to complete the cure used two more boxes, making four in all. I am now completely cured. Have not a trace of piles and I had suffered four years with the worst form of protruding piles.

I have suffered death from piles, but I have found the Pyramid Pile Cure to be just as represented. I have recommended it to several of my friends and I am thankful to be able to write you what good the remedy has done for me.

Physicians recommend the Pyramid Pile Cure because it contains no opium, cocaine, or mineral poison of any kind, and because it is so safe and pleasant to use, being painless and applied at night. The patient is cured in a surprisingly short time with no inconvenience whatever.

The Pyramid Pile Cure is sold by druggists at 50 cents per package, and it there is any constipation it is well to use the Pyramid Pills at the same time with the Pile Cure, as constipation is very often the cause of piles, and the pills effectively remove the costive condition. Price of Pills is 25 cents per package.

Write to Pyramid Drug Co., Marshall Michigan, for little book on cause and cure of piles, sent by mail free.
